426

- Three paper copies delivered to SOAH Docketing, two of which should be directed to Giselle Quintero to serve as the appeals copies.
- Three extra paper copies of confidential exhibits delivered to SOAH Docketing.
- Parties should discuss among themselves whether they need additional paper or electronic copies of exhibits to the extent they do not already have access to what they need.

III. HEARING PHASES

Section III of SOAH Order No. 4 addresses hearing procedures for this case. Section III requires the parties to submit a report that addresses, among other things, organizing the hearing into distinct phases addressing revenue requirement and then cost allocation/rate design. After reviewing the pre-filed testimony, the Administrative Law Judges have concluded that phasing the hearing in this manner is warranted. The cost allocation/rate design phase will address the various revenue distribution/rate moderation/gradualism issues. It is also expected that the rate of return/capital structure witnesses will testify sequentially so that their testimonies are contained in one section of the transcript. The parties should also consider whether the Dolet Hills issues should be addressed in a distinct hearing phase. The parties may also propose other phases.

SIGNED April 29, 2021.
